

PREMIUM FEED SUPPLEMENTS

### Feed Cost Comparison (Cattle)

Rancher's present feeding program Name: \_\_\_\_\_ Date: \_\_\_\_\_

30 lbs. hay / cow / day x \$ .0675 / lb. (\$135 / ton) =	\$ 2.03 /cow/day
3 lbs. range cake / cow / day x \$ .075 / lb. (\$150 / ton) =	\$ .225 /cow/day
2 oz. salt / cow / day x \$ .005 / oz. (\$4 / 50 lb. bag) =	\$ .01 /cow/day
4 oz. mineral / cow / day x \$ .0225 / oz. (\$18 / 50 lb. bag) =	\$ .09 /cow/day

**Total feed cost / cow / day** **\$ 2.36 /cow/day**

### SweetPro Feeding Program

Hay consumption benefit: **cows eat 25%+ less hay / day!**

Reason: **Improved digestion of nutrients** in hay!

Rancher's present hay consumption / cow / day is

30 lbs. x 75% (25% less hay needed / day) =

23 lbs. hay / cow / day x \$ .0675 / lb. = \$ 1.55 / cow / day

1 lb. SweetPro / cow / day x \$ .324 / lb. (\$81 / 250 lb. tub) = \$ .324 / cow / day

**SweetPro Program Total Feed Cost / Cow / Day** **\$ 1.88 / cow / day**

**SweetPro Lick Tubes** provide blend of Vitamins, Salt, Macro Minerals, Organic Complexed (Chelated) Trace Minerals, Flax Factors and Distillers Grains with the digestive aide, Pro Biotein.

**ProBiotein:** A proprietary blend additive consisting of yeast culture, Prebiotic oligosaccharides, enzymes and protein isolates.

**Yeast:** cultured on a media of wheat, oats, barley malt and flax, yeast is rich in biotin and other nutrients to aid digestion.

**Oligosaccharides (prebiotics):** feed the beneficial probiotic bacteria and help maintain good digestive tract health.

**Enzymes:** these catalysts of digestion are in a fibrinolytic, amylolytic & proteolytic array to assist starch fiber, protein and mineral utilization.

**Organic Complexed Minerals:** zinc, copper and manganese are complexed (bound to protein) to assure high bioavailability.

**Feed Efficiency Boost:** the cost of maintaining your cattle in top condition can be reduced. Look for 25% or more improvement in forage feed efficiency. Result is 25%+ less forage needed.

**SweetPro Program Total Feed Cost / Cow / Day** **\$ .48 (savings)**

**\$ .48 saving/cow/day x 100 cows = \$48 saving / day x 150 days = \$ 7,200 Total Saving for period.**
