

WHICH PRODUCT SHOULD I USE

Note: Place one 250 lb. "Profit Block" for every 25 Cows!!

Adaptation
Period of
1 to 3 weeks

then the
Expected
Consumption
should be:

IF: after the
Adaptation
period is over
& consumption
is consistently
greater than:

Below are the
products that
should reduce
consumption
levels. (If not,
use next no.
higher)

**Product
To Use**
↓

CLASS OF LIVESTOCK	Wt.	Kind of Hay	Kind of Pasture	Product To Use	Expected Consumption	Adaptation	IF: after the Adaptation period is over & consumption is consistently greater than:	Below are the products that should reduce consumption levels. (If not, use next no. higher)
