

PREMIUM FEED SUPPLEMENTS

Feed Cost Comparison (Cattle)

Rancher's present feeding program Name: _____ Date: _____

30 lbs. hay / cow / day x \$.03 / lb. (\$60 / ton) =	\$.90 /cow/day
3 lbs. range cake / cow / day x \$.075 / lb. (\$150 / ton) =	\$.225 /cow/day
2 oz. salt / cow / day x \$.005 / oz. (\$4 / 50 lb. bag) =	\$.01 /cow/day
4 oz. mineral / cow / day x \$.0225 / oz. (\$18 / 50 lb. bag) =	\$.09 /cow/day

Total feed cost / cow / day **\$ 1.23 /cow/day**

SweetPro Feeding Program

Hay consumption benefit: **cows eat 25%+ less hay / day!**

Reason: **Improved digestion of nutrients** in hay!

Rancher's present hay consumption / cow / day is

30 lbs. x 75% (25% less hay needed / day) =

23 lbs. hay / cow / day x \$.03 / lb. =

\$.69 / cow / day

1 lb. SweetPro / cow / day x \$.324 / lb. (\$81 / 250 lb. tub) =

\$.324 / cow / day

SweetPro Program Total Feed Cost / Cow / Day

\$ 1.02 / cow / day

SweetPro Lick Tubs provide blend of Vitamins, Salt, Macro Minerals, Organic Complexed (Chelated) Trace Minerals, Flax Factors and Distillers Grains with the digestive aide, Pro Biotin.

ProBiotin: A proprietary blend additive consisting of yeast culture, Prebiotic oligosaccharides, enzymes and protein isolates.

Yeast: cultured on a media of wheat, oats, barley malt and flax, yeast is rich in biotin and other nutrients to aid digestion.

Oligosaccharides (prebiotics): feed the beneficial probiotic bacteria and help maintain good digestive tract health.

Enzymes: these catalysts of digestion are in a fibrinolytic, amylolytic & proteolytic array to assist starch fiber, protein and mineral utilization.

Organic Complexed Minerals: zinc, copper and manganese are complexed (bound to protein) to assure high bioavailability.

Feed Efficiency Boost: the cost of maintaining your cattle in top condition can be reduced. Look for 25% or more improvement in forage feed efficiency. Result is 25%+ less forage needed.

SweetPro Program Total Feed Cost / Cow / Day

\$.21 (savings)

\$.21 saving/cow/day x 100 cows = \$21 saving / day x 150 days = \$ 3,150 Total Saving for period.
